

AUTOMATE
ACCOMMODATION

SMART DIGITAL LOCKS

*Smart. Secure. Stylish.
Access, Anywhere.*

Seamless Entry. Total Control.

The Automate Accommodation SMART Digital Lock offers sleek, commercial-grade security with 4-in-1 access: Bluetooth, PIN, RFID, or key. Unlock from up to 3 metres away, or enable remote access with a gateway. Manage digital keys, timed entry, and real-time logs effortlessly.

Smart Security for Motels & Guests.

For Motel Management

Streamlined Check-In/Out – Set temporary access codes for guests, eliminating key exchanges and automating checkouts.

Enhanced Security – Encrypted access, anti-tampering features, and real-time entry logs ensure better monitoring and protection.

Lower Costs – No more lost keys or rekeying expenses, reducing operational overhead.

Remote Access – Manage locks, update codes, and troubleshoot from anywhere.

For Guests

Keyless Convenience – Enter via PIN code, mobile app, or biometrics – no keys to carry or lose.

Contactless Check-In – Faster, hassle-free access with no need for front desk visits.

Enhanced Safety – Secure, tamper-resistant locks provide peace of mind.

Flexible Access – Temporary codes or app-based entry for a personalised experience.

Durable Design. Intelligent Access.

Automate Accommodation SMART Digital Locks deliver durable, weatherproof security with hands-free automation. Their sleek design, WiFi connectivity, and premium stainless steel construction ensure seamless remote management and long-lasting performance for commercial use.

Key Features & Benefits

Enhanced Security

Tougher to pick or tamper with, featuring encryption, anti-hacking protection, and detailed access logs.

Customisable & Smart

Unique codes for different users, auto-lock for added security, and future smart home integration.

Keyless & Convenient

Unlock via PIN code, RFID card, Bluetooth app, or optional fingerprint access. Temporary codes allow controlled guest or contractor entry.

Built to Last

Weatherproof, durable stainless steel construction with low-battery alerts and backup key access.

Remote Access & Monitoring

Manage locks from anywhere, track entry logs, and disable access in seconds via the TTLock app.

Perfect for Accommodation Businesses, Hotels, Pubs & Airbnbs

Streamline check-ins, ditch keys, and integrate with property systems for a seamless experience.
